## BLUE WINGS

BLUE WINGS™ is a 5-reel, 5-line stepper game with scatter pays and a bonus feature. This game is recommended at a 1C denomination. This game is intended for all lines play, and requires a minimum of 30 credits. The player is awarded the advertised scatter pay when the "CHANCE" symbol appears. The "CHANCE" symbol appears on reel 3 only. The player selects the credits bet then presses the "SPIN" button to start the game. All wins are on consecutive reels beginning with the leftmost reel except for the "CHANCE" symbol. All wins are on lit paylines shown on the top screen only, except for the "CHANCE" symbol win. Only the highest win is paid on each line. All wins are multiplied by the bet multiplier, except for progressive wins. Wins on different lines are added. Scatter wins are added to line wins. All wins are determined by the combination which appears after all reel movement has ended. The Blue Progressive Jackpot is won with 5 "MAN" symbols and the Red Progressive Jackpot is won with 5 "WOMAN" symbols. Both Jackpots may be won at the same time.

The Blue Bird Chance feature is initiated when a "CHANCE" symbol appears on reel 3. The player is awarded the scatter pay and the wheel on the top screen is spun to randomly determine the number of free games. The wheel is spun by pressing the "SPIN" button or by sliding and releasing the wheel. During the feature, different reels are used. No credit award is won with symbol combinations except for "MAN" and "WOMAN" symbol wins. The "CHANCE" symbol does not appear during the feature. The feature cannot be initiated again during the feature. Credits bet and lines played during the feature are the same as the game that triggered the feature.

La Consolacion College, Laguna is a non-stock, non-profit educational institution established in 1965. Its vision is to provide quality education to all who are committed to a social environment in Laguna devoted to the growth, formation and development of the individual.

In its commitment to quality and relevant education, the La Consolacion College applied for an Accreditation with the Philippine Accrediting Association of Schools, Colleges and Universities (PAAACU) in 1994 in which received favorable results.

As it continues to provide Christian, holistic education (HCE) to Bifan and its neighboring towns, La Consolacion College of Bifan, Laguna, commits itself with this course to expanding its wings and offering holistic needs.

Today, LCC-Bifan's College Department offers courses recognized by the Commission on Higher Education (CHED) and by the Technical Education and Skills Development Authority (TESDA).

In strengthening its Academic Programs, LCC-Bifan has entered into a partnership with TESDA/CHED, Inc. to upgrade the existing Program of the Basic Education Department and the PAAACU (LCC-Bifan) by the College Department's 3-level curriculum programs with a self-made approach.

La Consolacion College Bifan will likewise continue its educational mission that is not merely to provide graduates who are Open to Change, Christ-centered, responsible, intellectually competent, as well as sensitive and Responsible to the Signs of the Times.
